Helping Recover Unpaid Monies

Royalty and revenue share calculations are complex. There are so many opportunities for the payer to underpay a client, that regular audits are often necessary to uncover the monies owed and mistakes that can get made. Getting quality results is dependent on hiring auditors with expertise and integrity, because knowing what to look for and how to find it is critical.

Expertise and Experience are Everything

The president of our company has **more than 25 years of experience** in this work. Over the course of our careers, the professionals at Hurewitz And Company have uncovered in excess of **\$50 million unpaid amounts due clients**. Mistakes are common. Through audits and/or litigation services, we represent clients who receive royalties, profits & net revenue shares to calculate amounts owed, damages and uncover unpaid monies and possibly other contract non-compliance. With more than 25 years of experience, we yield reliable, timely and cost-effective results that exceed clients' expectations.
